SUMMARY

Product Designer with 4 years in product and 8+ years in design overall, working on complex B2B SaaS platforms and internal tools with many flows, states and feature dependencies. I own the full lifecycle, from user research and information architecture through wireframes, high-fidelity UI and interactive prototypes to implementation and polish, rationalizing every decision with data and direct user feedback. I build and maintain scalable design systems, run usability testing, and write frontend (Next.js) so my prototypes are real and my handoff is buildable.

EXPERIENCE

Duo Sicilian Ice Cream, [Product Designer](#) / Berlin, Germany / On-site

October 2024 - Present

- Designed and shipped Duo's internal ERP from zero: 13 modules, 40+ document types and 6 permission roles, in daily use across 9 locations and 6 departments.
- Ran discovery interviews and built the information architecture for 40+ document types, turning operational goals into user flows, wireframes, high-fidelity mockups and interactive prototypes, on a design system of components, patterns and design tokens I maintain.
- Designed a role-based access model with 6 roles that cut onboarding time by ~30% and removed accidental cross-module edits, plus a three-state status system (ok / warn / critical) applied across inventory, HR compliance, deliveries and production.
- Designed Duo Scan Memory, a scanning flow for goods receiving: inventory errors down ~30%, loading bay time down 15 to 20%, and unstacking pallets to recount gone entirely.
- Run usability testing and user feedback loops, and write the frontend in Next.js so prototypes are real and handoff is buildable.

Duo Sicilian Ice Cream, [Food Counter Clerk](#) / Berlin, Germany / On-site

June 2024 - October 2024

- Counter and production support after relocating to Berlin, moving into the product design role in October 2024.

TaurusWebs, [Product Designer](#) / Bogota, Colombia / Remote

October 2024 - Present

- Led the design of the Taurus Ecosystem, integrating a CRM, a knowledge base and encrypted chat into one platform behind single sign-on.
- Owned the whole process, from discovery and information architecture to user flows and stakeholder presentations, working cross-functionally with product managers, engineers and clients across several projects.

Blok Foods Ltd, Greens Supermarket Group, [Lead Designer](#) / Malta / On-site

February 2022 - November 2023

- Lead designer on contract for the Blok Foods brand, covering brand identity, packaging, in-store communication and web.

EXPERIENCE CONTINUED

TaurusWebs, Junior Product Designer / Bogota, Colombia / Remote

February 2022 - September 2024

- Moved from interface design into product design, focusing on user flows and interactive prototypes.
- Worked closely with engineers to improve usability on B2B platforms and commercial SaaS products, running iterative cycles that kept solutions user-centered while meeting business goals.

TaurusWebs, User Experience Designer / Bogota, Colombia / Remote

February 2019 - January 2022

- Rebuilt bulk data entry for livestock farms: loading a 70-animal farm went from ~6 hours to ~1 hour, and per animal from 5 minutes to under 1 minute.
- 100% of new farms onboard through the bulk flow and 98% of tracked farms migrated to it; Fedegan reporting went from ~167 hours to under 33 hours per month.

Greens Supermarket, Senior Graphic Designer / Swieqi, Malta / On-site

September 2021 - November 2023

- Led visual identity and digital design across three food brands in the Greens Group: Greens Supermarket, Fresh To Go and Blok Foods.
- Designed and launched several brand websites, led the identity system across photography, video, animation and packaging, and built the guidelines that held output consistent across the creative team.

EARLIER EXPERIENCE

Fresh To Go Foods Ltd, Greens Supermarket Group, Senior Graphic Designer

/ Swieqi, Malta September 2019 - November 2023

Greens Supermarket, Graphic Designer / Swieqi, Malta August 2019 - August 2021

Sanitas Medical Center, Lead Animator / Colombia February 2019 - May 2019

Rama Judicial, Consejo Superior de la Judicatura, Graphic Designer / Colombia September 2018 - January 2019

Agencia Trompo, in-house at Politecnico Grancolombiano, Junior Graphic Designer / Bogota, Colombia February 2017 - February 2018

PROJECTS

Finanzas Familiares, Product Designer and Developer / Berlin, Germany / Self-initiated

July 2025 - Present, live at finanzas.juliang.de

- Designed and built a household finance progressive web app in daily use: dashboard, budgets per category, bills, subscriptions and planner, over ~595 transactions.
- Connected two banks through Open Banking, importing every 3 hours, and replaced magic-link sign-in with a 6-digit code after the link kept opening a session outside the installed app. React, TypeScript and Vite on Supabase, web push, on Vercel.

NotchTunes, Product Designer and Developer / Berlin, Germany / Self-initiated

July 2025 - Present, macOS app

- Designed a music widget that lives in the MacBook notch: collapsed it is the artwork and a three-bar equalizer, and hovering opens transport, scrubbing and volume.
- Unified four players behind one interface: Apple Music and Spotify over AppleScript, YouTube and YouTube Music by reading the page video in Safari or Chrome. Controls the system silently refuses are verified on the next poll and dimmed, so the UI never lies about state.

SKILLS

Design and Craft

Product Design
UX / UI Design
Interaction Design
Information Architecture
User Flows and Wireframing
High-Fidelity Prototyping
Design Systems
Visual Design and Branding
Micro-Interactions
Accessibility (WCAG)

Research and Validation

User Research (Qual and Quant)
Discovery Interviews
User Personas
Usability Testing
User Feedback Loops
Data-Driven Experimentation
Data-Informed Design

Product and Technology

B2B Software as a Service (SaaS)
Internal Tools
ERP Systems
Enterprise Web Applications
Responsive Web Design
iOS and Android Mobile Design
AI-Powered Product UX
Copilot-Style Features
End-to-End Product Design

Tools

Figma, FigJam
Adobe Creative Suite
Next.js, React
HTML, CSS, JavaScript
Claude Code, Gemini, NotebookLM

Ways of Working

Cross-Functional Squads
Stakeholder Alignment
Scope, Prioritize and Define Outcomes
Design Critiques
Agile and Iterative Delivery
Design-to-Code Handoff
