PROFILE

Product Designer based in Berlin with a Master's in Visual and Experience Design and 8+ years shipping real products across web, internal tools and brand systems. I design end-to-end: user research, information architecture, interaction design and high-fidelity UI. My work focuses on operations-heavy software (ERPs, CRMs, internal SaaS) where dense data needs to feel calm and usable. Currently designing a full ERP system live across nine locations and a Twenty CRM + AppFlowy + Matrix ecosystem for a client. Fluent in Spanish (native) and English (C1), learning German (A2).

EXPERIENCE

Product Designer & Operations Lead | Duo Sicilian Ice Cream, Berlin

Oct 2024 – Present

- Designed and shipped Duo's internal ERP system used daily across nine locations and six departments (operations, logistics, production, HR, finance, management).
- Owned the full product process: user research with each department, information architecture for 40+ document types, wireframes, interactive prototypes and high-fidelity UI.
- Built a role-based access model so every department sees only the data it owns, reducing cognitive load and onboarding time.
- Designed a status-driven design system (ok / warn / critical) applied across inventory, deliveries, HR compliance and production modules.
- Modules shipped: dashboard, inventory, flavours & stock, expiring items, movements, orders, deliveries, logistics GPS, suppliers, production, staff, reports, settings.
- Also lead day-to-day operations: staff scheduling, onboarding, supplier coordination and quality control.

Product Designer | Cabezona Casa Creativa, Bogotá (remote)

Oct 2017 – Present

- Lead product designer for internal SaaS tools and custom client applications built from scratch.
- Designed the Taurus Ecosystem: a unified workspace combining a Twenty CRM, AppFlowy knowledge base and Matrix encrypted chat, all tied together through a single Google identity (SSO).
- Defined product strategy, user flows, IA and visual design for each module. Translated technical complexity into clear, brand-aligned interfaces.
- Produced stakeholder-facing pitch decks and proposals that turned infrastructure decisions into a clear value story (data sovereignty, cost predictability, scaling).
- Managed creative output and design team workflows across photography, video, branding and digital projects.

Design Lead | Greens Supermarket, Swieqi, Malta

Apr 2021 – Nov 2023

- Designed and launched multiple brand websites for the supermarket chain, from concept to live deployment.
- Led the visual identity system across photography, video, animation, packaging and in-store communications.
- Built design guidelines that kept output consistent across a multi-person creative team and several parallel campaigns.

Rectory Assistant | Politécnico Grancolombiano, Bogotá

Jul 2015 – Aug 2017

- Supported university leadership with scheduling, correspondence and internal documentation.
- Coordinated recruitment and cross-departmental projects.

E D U C A T I O N

MA Visual & Experience Design, UE University of Applied Sciences, Berlin

2023 – 2025

BA Marketing & Advertising, Politécnico Grancolombiano, Bogotá

2015 – 2019
