01 PROFILE

Product Designer with 7+ years specializing in B2B SaaS and internal tools. I help organizations streamline operations through scalable design systems, transforming complex workflows into intuitive experiences. AI-native by default—I start from an LLM to clarify intent, prototype with Cursor and Claude Code, and move fluidly between code and Figma. End-to-end ownership from discovery to deployment, with deep expertise in multi-role platforms and data-heavy interfaces.

02 EXPERIENCE

Product Designer — Duo Sicilian Ice Cream

OCT 2024 — PRESENT

BERLIN, GERMANY — ON-SITE

- Designed and shipped Duo's internal ERP from zero, now used daily across 9 locations and 6 departments (operations, logistics, production, HR, finance, management).
- End-to-end ownership: discovery interviews, information architecture for 40+ document types, wireframes, Figma prototypes, high-fidelity UI, design system, dev handoff, post-launch iteration.
- Built functional prototypes in HTML, CSS and JavaScript wired to live data, using AI-assisted editors (Cursor, Claude Code) to compress the path from concept to a testable, production-ready direction.
- Designed a role-based access model with six distinct roles, reducing onboarding time by ~30% and eliminating accidental cross-module edits.
- Built a three-state status system (ok / warn / critical) applied consistently across inventory, expiring items, HR compliance, deliveries and production.
- Shipped 13 modules: dashboard, inventory, flavours & stock, expiring items, movements, orders, deliveries, logistics GPS, suppliers, production, staff, reports, settings.
- Use the system daily as one of the operators, creating a continuous feedback loop with the rest of the users and grounding design decisions in real usage.

Product Designer — TaurusWebs (Freelance)

FEB 2019 — PRESENT

BOGOTÁ, COLOMBIA — REMOTE

- Lead designer for custom internal platforms and client-facing applications, built from scratch.
- Designed the Taurus Ecosystem: a unified internal workspace combining CRM (Twenty), knowledge base (AppFlowy) and encrypted chat (Matrix), tied through single SSO. Owned discovery, IA, user flows, Figma UI, prototype and stakeholder pitch.
- Translated complex technical decisions (data sovereignty, hosting, security) into product narratives non-technical stakeholders could approve.
- Led brand identity, web design and creative direction for client work spanning Latin America and the USA.

Senior Graphic Designer — Greens Group

SEP 2021 — NOV 2023

GREENS SUPERMARKET, FRESH TO GO, BLOK FOODS — SWIEQI, MALTA — ON-SITE

- Led visual identity and digital design across three food brands under Greens Group. Designed and launched multiple brand websites, led the visual identity system across photography, video, animation and packaging, and built design guidelines to keep output consistent across the creative team.
- Lead Designer on contract for Blok Foods (Feb 2022 — Nov 2023), owning brand and digital direction for the brand end to end.

Graphic Designer — Greens Group

AUG 2019 — AUG 2021

SWIEQI, MALTA — ON-SITE

- Produced web, print and in-store design across the group's food brands, building the foundation later scaled into a multi-channel design system.

03 EDUCATION

MA Visual & Experience Design — UE University of Applied Sciences, Berlin

2025

BA Marketing & Advertising — Politécnico Grancolombiano, Bogotá

2019

04 SKILLS

DESIGN CORE Product Design, UX/UI Design, Information Architecture, Design Systems, Visual Design, Interaction Design, Systems Thinking, User Experience Strategy

RESEARCH User Research, Discovery Interviews, Wireframing, Prototyping, Usability Testing, Jobs-to-be-Done, Design Tokens, WCAG 2.1 AA

AI WORKFLOW LLM-first ideation, Cursor, Claude Code, AI-assisted prototyping, Spec drafting, Rapid functional prototypes

TOOLS Figma, Framer, Adobe Creative Suite, HTML, CSS, JavaScript, Next.js, Miro, Notion, Linear

DOMAINS B2B SaaS, Internal Tools, ERP Systems, CRM Design, Data Visualisation, Multi-role Applications, Role-based Access Design

LEADERSHIP Cross-functional Collaboration, Stakeholder Management, Dev Handoff, Agile, Technical Translation
